Experience

Happie 9/14 - 3/15
Full Stack Developer

- o Built the original prototype as the only developer including the WebRTC video integration, design and layout, as well as all backend work.
- o Worked with the CEO to hire another developer, and then lead the direction and day-to-day tasks of the team
- o The platform was used for 5 events where 3 people found new jobs and allowed the company to raise a $500k seed round

Krash 4/13 - 3/15
Full Stack Developer

- o Built and launched the internal social network called Kollider that is used as a private LinkedIn for Krash's residents
- o Lead marketing-focused redesigns and optimizations of the various landing pages and websites driving applications for the program
- o Designed and built out a "Craigslist Hack" that allowed the company to grow rapidly once implemented

BuyForUs 10/11 - 4/13
Cofounder / Tech Lead

- o Founded the company with 2 friends our Freshman year at Boston College
- o Built the original product and made numerous changes based on feedback from non profits
- o Signed on a small user base of dedicated non profits including Autism Speaks
- o Received coverage in the Boston Globe, Boston Business Journal, and Bostinno

GoQ Software 10/10 - 8/11
Web Coordinator

- o Managed the company's online footprint, from social media accounts to WordPress website.
- o Helped execute the rebrand to GoQ Software from STI Learning by launching the new website.
- o Got a close up experience in a startup environment while still in High School
